

Help! I'm stuck in a login loop.

If you are having trouble logging into The Gift List Database, it could be because the Username/Password process requires you to enable cookies in your browser.

To check or change your settings:

1. Click the menu button ☰ and choose **Preferences**.
2. Select the **Privacy** panel.
3. Set **Firefox will:** to **Use custom settings for history**.
4. Check mark **Accept cookies from sites** to enable cookies, and uncheck it to disable them.

The screenshot shows the Firefox Privacy settings page. The 'History' section is highlighted with a red box. A callout bubble points to the 'Firefox will:' dropdown menu, which is set to 'Use custom settings for history...'. Another callout bubble points to the 'Accept cookies from sites' checkbox, which is checked, and the 'Accept third-party cookies' dropdown menu, which is set to 'Always'.

Select "Use custom settings for history."

Select an option that will ALLOW COOKIES. Select either "Never" or "From third parties and advertisers."

Return to the Gift List Media login page (www.giftlistmedia.com/login), enter your Username/Password as usual.

Select the database you want to open:

Please choose a database:

- The Gift List for Holiday - Print & Broadcast 2017
- The Gift List for Holiday - Web & Blog 2017
